

This map illustrates the geographical layout of San Bernardino County, California, highlighting its administrative boundaries and internal divisions. The county is divided into six numbered regions, each with distinct characteristics and local features.

- Region 1:** Located in the northwest, this region includes the San Gabriel Valley and the San Bernardino Mountains. It is characterized by its rugged terrain and is home to several small towns and communities.
- Region 2:** Situated in the north-central part of the county, this region features the San Gabriel Valley and the San Bernardino Mountains. It is known for its scenic views and recreational opportunities.
- Region 3:** Located in the northeast, this region includes the San Gabriel Valley and the San Bernardino Mountains. It is characterized by its rugged terrain and is home to several small towns and communities.
- Region 4:** Situated in the south-central part of the county, this region features the San Gabriel Valley and the San Bernardino Mountains. It is known for its scenic views and recreational opportunities.
- Region 5:** Located in the southwest, this region includes the San Gabriel Valley and the San Bernardino Mountains. It is characterized by its rugged terrain and is home to several small towns and communities.
- Region 6:** Situated in the southeast, this region features the San Gabriel Valley and the San Bernardino Mountains. It is known for its scenic views and recreational opportunities.

The map also shows the county's proximity to the Nevada and Arizona borders, as well as its location relative to major cities like Los Angeles and San Diego. The map is a valuable resource for understanding the county's geography and administrative structure.

Prison or Juvenile Detention Center		 PIVDC
National or State Park, Forest, or Recreation Area		 Yosemite NP
Outside Subject Area		

Where international, state, county, and/or MCD/CDD boundaries coincide, the map shows the boundary symbol for the only the highest-ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code:

- A " " following an MCD name denotes a false MCD. Following a place name indicates that a false MCD exists with the same name and FIPS code as the place; the false MCD label is not shown.
- Place label color corresponds to the place fill color.

Census tracts are identified by an up to four digit integer number and may have an optional two digit suffix, for example 23 or 145702. The census tract codes consist of six digits with an implied decimal between the fourth and fifth digit corresponding to the base census tract number, but with leading zeros, and trailing zeros for census tracts without a suffix. The tract number examples above would have codes of 0023000 and 145702, respectively.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

Note: This index map sheet provides the map sheet configuration in relation to the county boundary extent. Due to scale limitations, map content may be simplified. Refer to parent and/or inset map sheets for detailed map content.

A " * " following an MCD name denotes a false MCD. A " * " following a place name indicates that a false MCD exists with the same name and FIPS code as the place; the false MCD label is not shown.

Place label color corresponds to the place fill color.

Census tracts are identified by an up to four-digit integer number and may have an optional two-digit suffix; for example 23 or 145702. The census tract codes consist of two digits with a decimal between the fourth and fifth digit corresponding to the basic census tract number, with leading zeros, and trailing zeros for census tracts without a suffix. The census number examples above would have codes of 002300 and 145702, respectively.

Sheet Location within Entity

This is a reference map of San Bernardino County, California, displaying the 2020 Census Tract boundaries. The map is oriented with North at the top. Major transportation routes are clearly visible, including Interstate 15 running vertically through the center-right and State Route 78 running horizontally across the middle. The map also shows several national parks and preserves, including Death Valley National Park in the northwest, Mojave National Preserve in the southeast, and Providence Mountains State Recreational Area in the south. Numerous cities and towns are labeled throughout the county, such as Redlands, Fontana, Rialto, and San Bernardino. The map uses different colors and patterns to distinguish between various land use areas and administrative boundaries. A legend in the bottom right corner provides additional information about the symbols used on the map.

2020 CENSUS TRACT REF MAP (PARENT)
Sheet ID: 249606071005

This map displays the geographical context of the census tract in question. It shows the county's boundaries with neighboring states (Nevada, Arizona) and counties (Imperial, Riverside). Major transportation routes are clearly visible, along with significant water bodies and parks. The highlighted area follows a path through the eastern part of the county, starting near the Nevada border and extending south towards the Colorado River.

Where international, state, county, and/or MCD/CBD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code.

- A // "following an MCD name denotes a false MCD. A // "following a place name indicates that a false MCD exists with the same name and FIPS code as the place; the false MCD label is not shown.
